

WOMAN PROMOTER BACK IN TONOPAH

MISS LILLIAN MALCOLM RE-
TURNS TO SOUTHERN
NEVADA.

Miss Lillian Malcolm, the woman prospector and promoter, well known in this section of the country, is back in Tonopah after ten months' absence. Miss Malcolm has been in the interim in Cobalt, the home of the famous Nipissing, in New York and in Pittsburg, Cobalt is all right in its way, she says, but Nevada is the place for the mines and the money. While in Pittsburg, Miss Malcolm financed a property at Coyote Springs, in the Silver Peak district.

"I raised the money in Pittsburg," said she, "and I had no trouble in doing it, which goes to show that there is a great deal of a bugaboo about this talk of hard times and stringency of the money market. There is plenty of money to be had for legitimate propositions, if one is sincere in his or her motives. When one goes to business men, all that is necessary is to talk common sense. But if one is going to take romantic flights, and go up into the millions on an ordinary proposition, he is going to fall short in his expectations."

"Our company has been called the Scotch Lassie Gold Mining Company, and we have already started work upon it. The offices are located in Pittsburg, in the Columbia Bank building, the same building where are located the offices of the Pittsburg Silver Peak Company. Our president is I. L. Currier, who is a well known mining man of Bisbee, Arizona, and he is coming out shortly to look over the property. The latter is three miles south of Blair."

Miss Malcolm is going out to the property this morning. She has been here for about two days, and every moment of her time has been occupied. She is a hustler of no mean ability, and has done prospecting on her own account, both in Nevada and in Alaska.

PERSONAL MENTION

J. J. Mullen returned to Tonopah yesterday.

Attorney King of Rhyolite is spending a few days in Tonopah.

Attorney George Thatcher went to Goldfield yesterday morning, returning last evening.

W. W. Clark and L. L. Mushett left at 3 o'clock this morning for Big Pine, California. They made the trip in an auto.

Mrs. A. J. Reardon, who has been visiting friends and relatives on the coast for three months, has returned to Tonopah.

The wife and three daughters of Cashier R. T. Harris of the Nevada First National Bank, arrived in Tonopah on last night's train from Ogden.

J. Bonnekamp McKenna, a tobacco salesman of San Francisco, is at the Palace. He says that the demand for Star chewing tobacco is just as large as ever.

Mrs. J. P. Brissell, who has been visiting friends and relatives in San Francisco, San Jose and Sacramento for several months, returned to this city last night, and once more the Judge is happy.

RETURNS TO AFRICA.

Cleve Leadbetter, who returned to Nevada several months ago from Africa, where he was employed as a mining engineer by a large English syndicate, will leave some time next month for Africa and resume his old position. Mr. Leadbetter is a graduate of the University of Nevada, with the class of 1902, and is a very capable engineer. He states that he likes Africa, but that Nevada is better. He has an excellent position with the English mining company, however, and has decided to accept it.

ELY BANKS CLOSE.

SALT LAKE, Nov. 1.—A dispatch from Ely today says that the Bank of Ely and the First National Bank of Ely have closed their doors, temporarily at least, and that the Nevada Consolidated and Cumberland Ely mines are laying off their men.

TAFT AT BANQUET.

MANILA, Nov. 1.—Secretary Taft returned here yesterday evening and attended a banquet given by the Quill Club, which is composed of Americans. The secretary has decided to adhere to the original program and will not leave here until Nov. 9.

It is a well known fact that persons living in the pine forests do not suffer from kidney diseases. One dose of Pineules at night usually relieves backache. 30 days' treatment \$1.00. Your money refunded if not satisfied. Sold by Tonopah Drug Co.

EASTERN PARTY OFF FOR UBEHEBE

JOHN SALSBERY LEAVES WITH
HIS GUESTS YESTERDAY
MORNING.

The Eastern party, the guests of John Salsbery, left for Ubehebe yesterday morning in the wake of the regular south bound train. The special car, Idlewild, in which the party rested, rode, slept and dined, was attached to the train, and notwithstanding the lateness of the hour at which the visitors retired, in consequence of having remained up to see the city, they were all up and doing when the car pulled out in the morning.

The program was for the car to be left at Bonnie Claire, while the party proceeded to Ubehebe in automobiles, so that last night was spent in the copper camp. All day today and tomorrow will be spent in inspecting the mines, going over the trails, and it is expected that the return trip will be made tomorrow, in the event of which the party will reach here tomorrow night, if it is not decided to lie over at Goldfield. If the time can be spared by the visitors, a stop will be made at both Goldfield and Tonopah; otherwise they will go right through on the train. Their principal desire was to thoroughly inspect Ubehebe, and in that they are to be gratified.

FERRYBOATS ON AMERICAN PLAN

PARIS, Nov. 1.—The French government has given its approval of the projected English ferryboat service on the American plan between Dover and Calais, the object of which is to increase traffic to and from the continent.

DESERT MILL RESUMES.

The Desert mill at Millers resumed operations last night after a shut-down for repairs of over a week.

MIDWAY MINE IN FINE SHAPE

HAS SHIPPED OVER FIVE HUN-
DRED TONS THE PAST
MONTH.

The Midway mine never was in better shape, and during the month which has just passed the mine shipped to the Butters mill at Virginia City over five hundred tons of ore. There is shipped each week not less than one hundred and fifty tons, according to the contract with the mill.

The crosscut in the Midway on the eight hundred level has been run for a distance of between six hundred and seven hundred feet, and a vein of forty feet in width has been cut, the values of which are low grade. Sinking will be started from this level in the expectation of encountering greater values at depth. If this is done, the Midway mine will be one of the greatest properties in the camp, for it will then have demonstrated that it has the ore in paying quantities below the dactyl intrusion which came in at the upper levels. Should there never be any deeper ore encountered than at the present levels, the Midway is a great mine at that, for there are tons and tons of high grade ore that will make shipments for many years to come.

WILL TAKE REMAINS EAST.

The relatives of Mrs. B. D. Ver-rault, the woman who was found dead in her room in upper Florence avenue over a week ago, will come to Tonopah and claim the remains and take them East for permanent burial.

F. AND A. M.

Tonopah Lodge, No. 28, F. and A. M., will hold a called communication this (Saturday) evening at 7:30, at Butler Hall. All visiting Masons are cordially invited. Work in the first degree. By order

R. J. DAVIS, S. W.
THOMAS LINDSAY, Sec.

A porphyry quartz carrying cubes of hematite in which are innumerable colors of gold is being developed at Natchez.

WILL BEGIN ROAD WORK SOON

The repairing of the Manhattan road will be begun as soon as George W. Summerfield can get over the premises. Mr. Summerfield, who guaranteed to lend the county \$750 with which the repairs are to be made, said this morning that the weather the past week had been so rough that he did not have the opportunity, but that with the stormy period over he will make an inspection trip as soon as possible and the work will be started shortly afterward. It is thought that the repairs can be completed in a few weeks at the outside.

VETERAN MINER PASSES AWAY

The man who probably made the first successful application of the cyanide process in the United States, Joseph Smith, is dead in San Diego, Cal. Death occurred yesterday. The funeral will likely be held in that city.

Mr. Smith was well known throughout Utah, and it was he who brought to Mercur its first cyaniding plant. The camp prior to the installation of the new process was of the silver-lead character. At one time he was connected with the Marion mine at Mercur, and after its consolidation with the Geyser, he came to Nevada, where he followed mining and the science of the reduction of ores.

Mr. Smith was born in Ireland, and was about 65 years of age. He came to this country at an early age. He was not married.—White Pine News.

GOLDBANK IS A PROMISING CAMP

GOLD BANK, Nov. 1.—Situating this little mining camp is, forty miles south of Winnemucca, one would scarcely believe that in the past two months 1900 persons have already located claims here. There are now 150 tents, 400 people, over 1000 mining claims, 11 leases let, three boarding houses and five saloons already established here.

"Goldfield" Smith, the founder of the little town and locator of the Last Chance and Last Chance Extension mines, which have already been bonded to Goldfield capitalists for \$500,000, is still here. He has become wealthy, but still insists that a mining camp is the place for him. There is not yet a hole forty feet deep in the camp, and by the way prospectors are flocking in the town will soon be as large as Goldfield and other mining camps.

NOTICE.

There will be a meeting of the State Board of Medical Examiners at Carson City, Nevada, on November 4th, 1927.
S. L. LEE,
10-19-12t Secretary.

Don't forget the Bonanza's up to date bindery.
